

THE CITY AND IT'S RIVER – LIGHT FLOATING ON BLUE

WITH COLORSTREAM® LAPIS SUNLIGHT

The view of Zurich skyline on the Limmat river recalls leisurely summer evenings on the river with an 'apero' – aperitif – in hand.

The relaxed mood of blue hour and blue river with light reflections floating over the water is reflected in our color formulation. A medium blue with good intensity is the basis. Smooth light reflections are created by using Colorstream® Lapis Sunlight. It recreates the floating and changing impressions of colored lights on the water.

Pigmentation

Given in % and as total PWC.

The PWC (Pigment Weight Concentration) in the dry film is indicated as

$$\text{PWC} = p / (p + b)$$

p = total weight pigments (solid)

b = weight binder (solid)

In the dry state: Pigment / binder ratio = $(\Sigma \text{Pigment}) / (\text{Total solid content (wet form)} - (\Sigma \text{Pigment}))$

Feasibility for on-line application

The stylings in our Styling Impulse are intended to demonstrate future effect color directions and possibilities. Although we have tried to make the formulations as realistic as possible, we cannot guarantee their full feasibility for on-line application. A certain degree of modification and fine tuning will probably be necessary.
