A perfect message.

The best way to create a service request.

Once you decide to contact us via email and **submit a service request**, this is what you should think of when creating it.

Short Description: This field should contain a brief overview of the question that you have.

Example: Unable to find event Doc1234567 from SAP Ariba

Problem Type: Select the most suitable area.

Example: Event Participation

Details: Please provide as much information as possible. **Also provide a step-by-step description of your actions.**

For fast resolution, please include all relevant details in your case.

- A detailed description of the issue including full navigational paths, actions performed prior to the issue.
- Your expected results from the system.
- Steps to replicate the issue.
- Attach screenshots or recordings of the issue. If possible also attach an invitation email.

Example: I received an invitation from SAP Ariba to participate in event Doc1234567. Steps to reproduce: 1. Click on the URL in the invitation email (the invitation email attached) 2. Then I log in with my credentials

3. And I have an error message on the screen "You must enter the username and password associated with your account" (Screenshot attached). My username is: user@company.com

Document or Event #: When you are invited to participate in an event provide the "Doc" number of that event.

Company that invited you: Provide the name of the company that invited you to participate in the event.

PO/Invoice Number: If you are transacting or are about to transact with your customer, please fill in the invoice or PO number in question.

Fill in all your contact information in the section below.

Make sure your telephone number is correctly populated.

Need a buyer's helping hand?

Where to find the information on how to contact your customer.

When you are transacting with your customer on Ariba Network and when you have questions like “When will my invoice be paid?” or “Why was my invoice not paid yet?” you need to contact your customer.

You can find useful information on the Supplier Information Portal where you can get answers to your questions.

1. Log in to your SAP Ariba Commerce Cloud account and navigate to the Ariba Network module
2. Click on 'Company Settings' in the top, right-hand corner
3. Click on 'Customer Relationships' from the drop-down menu
4. Locate the customer for whom you have questions in the 'Current' section and see if they have created the 'Supplier Information Portal'
5. If so, click on 'Supplier Information Portal'. This will open the portal.

Customer Satisfaction Survey (CSAT). Let us know what you think.

After an interaction with an SAP Ariba Customer Support specialist you will be able to provide feedback and rate your interaction.

- Survey combines rated questions (1-10; 10 highest) and open-ended questions.
- Please use the overall satisfaction question to rate your interaction with the particular specialist.
- If you have any other feedback related to SAP Ariba itself, any comment that you would like to share with us, please use comment box "6. Please use the following space to add any further feedback related to the SAP Ariba site or product that we can pass along for you."
