Cautionary Note Regarding Forward-Looking Statements and financial indicators

This communication may include “forward-looking statements.” Statements that include words such as “anticipate,” “expect,” “should,” “would,” “intend,” “plan,” “project,” “seek,” “believe,” “will,” and other words of similar meaning in connection with future events or future operating or financial performance are often used to identify forward-looking statements. All statements in this communication, other than those relating to historical information or current conditions, are forward-looking statements. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond control of Merck KGaA, Darmstadt, Germany, which could cause actual results to differ materially from such statements.

Risks and uncertainties include, but are not limited to: the risks of more restrictive regulatory requirements regarding drug pricing, reimbursement and approval; the risk of stricter regulations for the manufacture, testing and marketing of products; the risk of destabilization of political systems and the establishment of trade barriers; the risk of a changing marketing environment for multiple sclerosis products in the European Union; the risk of greater competitive pressure due to biosimilars; the risks of research and development; the risks of discontinuing development projects and regulatory approval of developed medicines; the risk of a temporary ban on products/production facilities or of non-registration of products due to non-compliance with quality standards; the risk of an import ban on products to the United States due to an FDA warning letter; the risks of dependency on suppliers; risks due to product-related crime and espionage; risks in relation to the use of financial instruments; liquidity risks; counterparty risks; market risks; risks of impairment on balance sheet items; risks from pension obligations; risks from product-related and patent law disputes; risks from antitrust law proceedings; risks from drug pricing by the divested Generics Group; risks in human resources; risks from e-crime and cyber attacks; risks due to failure of business-critical information technology applications or to failure of data center capacity; environmental and safety risks; unanticipated contract or regulatory issues; a potential downgrade in the rating of the indebtedness of Merck KGaA, Darmstadt, Germany; downward pressure on the common stock price of Merck KGaA, Darmstadt, Germany and its impact on goodwill impairment evaluations as well as the impact of future regulatory or legislative actions.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included elsewhere, including the Report on Risks and Opportunities Section of the most recent annual report and quarterly report of Merck KGaA, Darmstadt, Germany. Any forward-looking statements made in this communication are qualified in their entirety by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, us or our business or operations. Except to the extent required by applicable law, we undertake no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.

This presentation contains certain financial indicators such as EBITDA pre exceptionals, net financial debt and earnings per share pre exceptionals, which are not defined by International Financial Reporting Standards (IFRS). These financial indicators should not be taken into account in order to assess the performance of Merck KGaA, Darmstadt, Germany in isolation or used as an alternative to the financial indicators presented in the consolidated financial statements and determined in accordance with IFRS. The figures presented in this statement have been rounded. This may lead to individual values not adding up to the totals presented.

03 Guidance

01 EXECUTIVE SUMMARY

Highlights

Operations

- ▶ Healthcare – Underlying profitability better than Q1 and further boosted by non-recurring business-related income
- ▶ Life Science – Sustained strong organic growth driven by all businesses with Process Solutions as main contributor
- ▶ Performance Materials – Strong OLED growth more than offset by (1) lower LC due to decreasing China ramp-up support, and (2) market slowdown in Semiconductor Solutions and Surface Solutions

Financials

- ▶ Q2 2019 organic sales growth of +5.6%; Q2 2019 organic EBITDA pre growth of +20.3%
- ▶ Full-year 2019 guidance confirmed: net sales: €15.3 to 15.9 bn; EBITDA pre: € 4,150 to 4,350 m; EPS pre: € 5.30 to 5.65
- ▶ Financing structure for Versum Materials acquisition in place – €1.5 bn hybrid bonds and €2 bn EUR bonds* successfully issued

* EUR bonds were placed on July 1st, 2019

Life Science and Healthcare drive organic growth supported by FX tailwinds

Q2 2019 YoY net sales

	Organic	Currency	Portfolio	Total
Healthcare	5.2%	0.7%	0.0%	5.9%
Life Science	9.0%	2.1%	-0.6%	10.5%
Performance Materials	-2.0%	2.4%	0.0%	0.4%
Group	5.6%	1.5%	-0.2%	6.9%

- Solid growth in Healthcare reflects stable core business and increasing contributions from Mavenclad[®] and Bavencio[®]
- Above-market organic growth in Life Science due to strong demand across all businesses and regions
- Performance Materials reflects lower LC due to reduced China ramp-up support and softer market demand in Semiconductor and Surface Solutions; OLED again strong

Q2 YoY EBITDA pre

- Increased organic EBITDA pre driven by milestone payments and deferred income in HC as well as ongoing strong performance of LS
- Positive FX impact on EBITDA pre due to EUR/USD development and last years' ARS¹ devaluation burdened by hedging losses

¹ARS – Argentine peso; ²Thereof IFRS 16 effect with +3.5% (+€32 m); Totals may not add up due to rounding

Organic growth driven by all regions

Regional breakdown of net sales [€m]

Regional organic development

- Strong APAC due to double-digit growth of Glucophage[®], Erbitux[®] and OLED; Life Science with ongoing strong demand
- Europe driven by strong demand in Life Science; strong Mavenclad[®] ramp-up overcompensates Rebif[®] decline
- North America reflects double-digit growth of Process Solutions, Fertility and Mavenclad[®] ram-up, outweighing double-digit decline of Rebif[®]
- Solid performance in LATAM due to strong Life Science, Erbitux and N&I franchise
- Middle East and Africa driven by strong Rebif[®] and Glucophage[®]

03 GUIDANCE

Group

Key earnings drivers to remember for 2019

EBITDA¹-supporting factors

- Strong sales contribution from Mavenclad® ramp-up and Bavencio®

NEW

Ongoing strength in Life Science with 7% to 8% organic above-market net sales growth and 20-30 bps underlying margin progression

- Successful partnering of bintrafusp alfa with ~€100 m of deferred income from upfront payment recognized as other operating income in Q2 to Q4 2019
- Income from milestones and management of pipeline (part of operating business in Healthcare) materializing in Q2 and Q4 2019

- Lower expected license payments for Erbitux®

- High level of cost consciousness and prioritization

- Adoption of IFRS 16 contributes ~€130 m² to organic growth YoY

NEW

Positive FX impact: Emerging market currencies remain weak but offset by favorable EUR/USD development (range 2019: 1.12-1.16)

EBITDA¹-reducing factors

NEW

About stable R&D costs budgeted for Healthcare and decrease as % of sales (actual development will be subject to clinical data outcome of priority projects and prioritization decisions)

- Healthcare underlying margins negatively impacted by product mix

NEW

Performance Materials sales and earnings reaching trough due to expected decline in Liquid Crystals in H2; economic environment may lead to moderate decline in Semiconductors, returning to growth in 2020

Double digit organic growth of General Medicine fueled by China and LATAM

Sales evolution

Endocrinology

Q2 2019 organic drivers

- Endocrinology declines organically due to lower demand and higher sales deductions in the U.S. mitigated by higher demand in LATAM and APAC

General Medicine*

- General Medicine reflects double digit growth of Glucophage[®], ongoing strong demand for Concor[®] and Euthyrox[®] driven by China and LATAM

*includes CardioMetabolic Care & General Medicine and Others
