MilliporeSigma Earns Accreditation for Quality Control of Culture Media

- **The QC lab in Darmstadt, Germany adheres to the most stringent international standards for quality in preparation and performance**
- **Accreditation ensures full compliance of GranuCult™ culture media**

Billerica, Massachusetts, April 19, 2016 — [MilliporeSigma](#) has received accreditation for the quality control of dehydrated culture media tested at its Microbiology Quality Control Laboratory in Darmstadt.

The [ISO/IEC-17025:2005](#) is the international standard in testing and calibration for laboratory quality systems. The accreditation means that global customers in the food, beverage and municipal water industries can be assured that MilliporeSigma's facility adheres to the most stringent international standards for quality in preparation and performance. The accreditation provides a benchmark for lab competence for specific types of testing, measurement and calibration, informing customers that test data supplied by the lab are accurate and reliable.

Having an ISO/IEC-17025:2005 accreditation from Germany's national accreditation body, [DAkkS](#), ensures the full compliance of the lab's [GranuCult™ culture media](#) to the new mandatory standard [ISO 11133:2014](#) concerning the preparation, production, storage and performance testing of culture media. ISO/IEC-17025:2005-certified culture media help lab

News Release

professionals remain consistently compliant and accurate in their microbial testing of food and water samples.

Laboratories are evaluated periodically to ensure continued compliance with requirements and maintenance of operations standards.
