

# Ivan Donzelot

## Head of Integrated Supply Chain Operations

Ivan Donzelot is Head of Integrated Supply Chain Operations (ISCO) at the Life Science business of Merck, KGaA, Darmstadt, Germany, as of March 23, 2022. In this role, he is responsible for the global manufacturing site network, supply chain planning activities and distribution center network. The ISCO organization drives the manufacturing strategy, capital investments, operational excellence and supply chain management processes to further establish standardized and best-in-class processes within site operations and supply chain and constantly improve quality, cost, and the delivery of products to Life Science customers around the world.

Donzelot brings 27 years of experience in Manufacturing and Supply Chain and extensive intercultural experience to the role. He started his career in 1995 with 3M as an Operations Engineer in France and the USA, then moved on to Production Manager roles in France. In 2004, he was appointed Plant Manager of 3M's Electronics site in Cluses, France. Between 2008 and 2011 he held the role of China Manufacturing & Supply Chain & Lean Six Sigma General Manager for Andritz AG in Guangzhou, China. Donzelot then rejoined 3M as France Manufacturing VP, before relocating to St. Paul, Minnesota, where he held Global Manufacturing responsibilities for 3M's Automotive and Chemicals businesses. He then relocated to Switzerland to lead EMEA Manufacturing and was appointed Senior Vice President, EMEA manufacturing & Supply Chain, Enterprise Operations in 2020.

Donzelot holds a Master's Degree in Mechanical Engineering from INSA Lyon, France. He is a certified Six Sigma Black Belt and participated in INSEAD's Asian Executive Program in 2011. He is a former board member of French Chamber for Commerce in Guangzhou, China and American Chamber of Commerce in Paris, France. Married and a father of three (two daughters, one son), he holds a black belt in Judo and loves skiing, traveling, and spending time with family and friends.

MilliporeSigma is the U.S. and Canada Life Science business of Merck KGaA, Darmstadt, Germany.
